

# HIV & STI NURSING COMMUNITY OF PRACTICE

Hosted by Oregon AETC & the Association of Nurses in AIDS Care - Cascade Chapter

## OBJECTIVES

This monthly community of practice will double as an ANAC - Cascade Chapter meeting, and is an opportunity for informal, peer-to-peer learning for nurses in HIV and STI prevention and care across the state of Oregon.

Each meeting will feature a check-in, casebased discussion, and conversation about a specific topic of interest as determined by the group.

## REGISTER
