

Pharmacy Care for People Living with HIV

May 18th, 2021

Land Acknowledgement

The Oregon AETC would like to take a moment to recognize the unceded ancestral lands of the first people. We pay respects to their elders past and present. Please take a moment to consider the many legacies of violence, displacement, migration, and settlement that bring us together here today.

HIV does not discriminate. As part of ending new HIV infections, we, as a provider community, must elevate those groups who have been historically marginalized in our communities and in the response to the HIV epidemic. It is our responsibility to listen, recognize, and bring their experiences to the forefront.

Acknowledgement

This Mountain West AIDS Education and Training (MWAETC) program is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$2,911,844 with 0% financed with non-governmental sources.

The content in this presentation are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS, or the U.S. Government.

This Training is Being Recorded

In order to have this training as a resource, we are recording today's sessions and will provide the video to attendees following the event

An Environment for Learning & Collaboration

The responsibility of your hosts

As your hosts, we are responsible for maintaining an environment that fosters learning and collaboration. We reserve the right to remove individuals whose aim is to disrupt the learning experience of others by means of disruption, intimidation, or the intentional dissemination of false information.

Objectives

- Explain the role of pharmacists and pharmacy technicians in ending new HIV infections in Oregon
- Describe the current preferred initial regimens for HIV treatment and relevant considerations for individualizing treatment
- Identify services, practices, and/or systems that can be implemented at the pharmacy level to promote patient engagement, retention in care, and improved health outcomes for people living with HIV

Time	Session	Presenter
